

RACHID MOYSE POLANIA

PROFESSIONAL PROFILE

Senior DevSecOps and Platform Engineer with extensive experience in government and enterprise projects. Proficient in Threat Hunting using MITRE ATT&CK and open-source tools, with a strong focus on embedding shift-left security principles directly into CI/CD pipelines. Demonstrated expertise implementing SAST, DAST, and Software Composition Analysis (SCA) using industry-standard tools like Snyk, SonarQube, and OWASP ZAP to ensure robust application and container security. Highly skilled in architecting and automating cloud environments across AWS and Azure, with a proven track record of enforcing and maintaining strict regulatory compliance with HIPAA, PCI-DSS, SOC 2, and ISO 27001 standards within AWS infrastructures. Adept at infrastructure automation using Ansible, Puppet, Jenkins, Terraform, Serverless, Docker, and Kubernetes (integrating scanners like Trivy). Possesses deep knowledge of GitOps methodologies using ArgoCD, alongside advanced programming proficiency in Golang, Python, PowerShell, and Bash. Capable of building and managing highly secure cloud, virtual, and on-premise infrastructures across UNIX and Windows environments.

EDUCATION

Systems Engineer

Fundación Universitaria del Area Andina | 2023 – 2026

Technologist in Data Network Management

Servicio Nacional de Aprendizaje - SENA | 2016 – 2018

Academic Bachelor

Colegio Francisco de Quevedo | 2010 – 2015

CERTIFICATIONS

- **AWS Certified Cloud Practitioner (CLF-C01)**
Date of Issue: November 2022
- **AWS Certified Solutions Architect - Associate (SAA-C03)**
Date of Issue: September 2025
- **Microsoft Azure Security Engineer Associate (AZ-500)**
Date of Issue: July 2020 | *Expiration Date:* July 2026
- **Certified Kubernetes Administrator (CKA)**
Date of Issue: January 2024
- **FinOps Certified Engineer**
Date of Issue: July 2025
- **HashiCorp Certified: Terraform Associate (003)**
Date of Issue: November 2025

- **Certified Red Team Professional (CRTP)**
Date of Issue: May 2022
- **Certified Red Team Expert (CRTE)**
Date of Issue: November 2022
- **eLearnSecurity Junior Penetration Tester (eJPT)**
Date of Issue: February 2022
- **Certified Cyber Security Analyst (C3SA)**
Date of Issue: July 2023
- **Certified Process Injection Analyst (CPIA)**
Date of Issue: August 2023
- **Introduction to Hybrid-Multi Cloud Red Team Training**
Date of Issue: November 2022
- **Scrum Foundation Professional Certificate**
Date of Issue: June 2020
- **Cybersecurity Foundation Professional Certificate**
Date of Issue: March 2021 | *Expiration Date:* March 2023

WORK EXPERIENCE

Senior System Engineer

EPAM | Bogotá, Colombia

contractor | April 2025 – Present

- Maintained and optimized the daily operation of critical infrastructure systems.
- Designed and implemented Infrastructure as Code (IaC) using Terraform, developing reusable modules for AWS resources.
- Managed and secured AWS workloads, including ECS, EKS, S3, and CloudFront distributions, ensuring compliance with security standards.
- Developed and maintained CI/CD pipelines using *Jenkins* and GitHub Actions, incorporating automated testing and security scans.
- Implemented and enforced security policies, including IAM role-based access and AWS GuardDuty for threat detection.
- Collaborated with cross-functional teams to integrate security into DevOps pipelines, utilizing OWASP ZAP and SonarQube for automated vulnerability scans.
- Monitored infrastructure using CloudWatch and Prometheus, creating actionable alerts for system health and performance.
- Managed the full application lifecycle on Kubernetes clusters, including AWS EKS, by implementing GitOps principles with ArgoCD
- Create Event Driven Architectures using AWS Lambdas, SQS, EventBridge and StepFunctions

Immediate Supervisor: Santiago Castellanos • Email: Santiago_Castellanos@epam.com

Senior DevSecOps Engineer

Hoag Memorial Hospital Presbyterian | Orange County, United States

contractor | January 2025 – April 2025

- Maintained and optimized the daily operation of critical infrastructure systems.
- Designed and implemented Infrastructure as Code (IaC) using Terraform, developing reusable modules for AWS resources.
- Managed and secured AWS workloads, including ECS, EKS, S3, and CloudFront distributions, ensuring compliance with security standards.
- Developed and maintained CI/CD pipelines using *Jenkins* and GitHub Actions, incorporating automated testing and security scans.
- Implemented and enforced security policies, including IAM role-based access and AWS GuardDuty for threat detection.
- Collaborated with cross-functional teams to integrate security into DevOps pipelines, utilizing OWASP ZAP and SonarQube for automated vulnerability scans.

- Monitored infrastructure using CloudWatch and Prometheus, creating actionable alerts for system health and performance.
- Create Event Driven Architectures using AWS Lambdas, SQS, EventBridge and StepFunctions

Immediate Supervisor: Brandon Wilson • Cell: +1-281-750-9483 • Email: brandon.wilson@hoag.org

Senior DevSecOps Engineer

Blank Factor | Bogotá, Colombia

Indefinite-term contract | August 2024 – January 2025

- Maintained and optimized the daily operation of critical infrastructure systems.
- Designed and implemented Infrastructure as Code (IaC) using Terraform, developing reusable modules for AWS resources.
- Managed and secured AWS workloads, including ECS, EKS, S3, and CloudFront distributions, ensuring compliance with security standards.
- Developed and maintained CI/CD pipelines using *Jenkins* and GitHub Actions, incorporating automated testing and security scans.
- Implemented and enforced security policies, including IAM role-based access and AWS GuardDuty for threat detection.
- Collaborated with cross-functional teams to integrate security into DevOps pipelines, utilizing OWASP ZAP and SonarQube for automated vulnerability scans.
- Monitored infrastructure using CloudWatch and Prometheus, creating actionable alerts for system health and performance.
- Create Event Driven Architectures using AWS Lambdas, SQS, EventBridge and StepFunctions

Immediate Supervisor: Rumen Ginev • Cell: +359 876 698 140 • Email: rumen.ginev@blankfactor.com

Security Manager

K2 | Bogotá, Colombia (Part-time Consultant)

Freelance | October 2023 – February 2025

- Defined and implemented advanced IaC for cloud and hybrid environments using Terraform.
- Conducted advanced penetration testing on cloud and on-premise systems, identifying and mitigating vulnerabilities.
- Automated security event analysis using Elastic Stack (ELK) and developed real-time monitoring dashboards.

- Designed and implemented secure AWS environments, focusing on IAM policies, CloudTrail, and CloudFormation.
- Developed comprehensive security documentation, including operational playbooks and incident response plans.

Immediate Supervisor: Gustavo Ricci • Cell: 3226579942 • Email: it@k2con.com

DevOps Engineer

Koombea | Bogotá, Colombia

Indefinite-term contract | August 2022 – August 2024

- Automated infrastructure provisioning and configuration using Ansible and Terraform.
- Deployed and managed containerized applications on *Kubernetes*, configuring Helm charts for workload optimization.
- Configured and maintained CI/CD pipelines with *Jenkins*, implementing static code analysis and automated testing.
- Designed scalable server architectures, ensuring high availability and fault tolerance across multiple environments.
- Integrated AWS services like RDS, S3, and CloudFront for backend services and content delivery.
- Conducted performance tuning and capacity planning for cloud-hosted applications.
- Create Event Driven Architectures using AWS Lambdas, SQS, EventBridge and StepFunctions

Immediate Supervisor: Leonardo Bolsoni • Cell: +5548996257065 • Email: leonardo.bolsoni@koombea.com

Cloud Security Engineer

Territorium | Bogotá, Colombia

Service contract | March 2022 – August 2023

- Performed penetration testing for web apps, APIs, and mobile apps, identifying vulnerabilities and recommending mitigations.
- Conducted cloud penetration testing on AWS and Azure platforms, securing configurations and access controls.
- Automated compliance checks using AWS Config and custom scripts in *Python*.
- Defined and implemented security policies, integrating them with existing DevOps pipelines for continuous security assurance.

Security Analyst I

Teleperformance | Bogotá, Colombia

Indefinite-term contract | March 2022 – August 2022

- Designed and deployed secure CI/CD pipelines using *Jenkins*, integrating automated security tests.
- Conducted security analysis of project architecture, ensuring compliance with best practices.
- Automated application security testing using tools like OWASP ZAP and Burp Suite.
- Implemented SecDevOps processes, combining security and DevOps for streamlined workflows.

Immediate Supervisor: Juan Silva • Cell: 3134711406 • Email: juan.silva@teleperformance.co

Ethical Hacker Senior

AntiFraude CyberSecurity & Privacy Services LLC | Bogotá, Colombia

Indefinite-term contract | August 2021 – March 2022

- Performed white box testing for web applications and cloud environments, identifying vulnerabilities in production systems.
- Conducted OAST testing and ethical hacking assessments for AWS and on-prem infrastructures.
- Supported the SecDevOps process by integrating vulnerability scanning tools into CI/CD pipelines.

Immediate Supervisor: Juan Carlos Reyes • Cell: 3187358018 • Email: jcreyes@antifraude.co

Chief Information Security Officer

IMEXHS | Bogotá, Colombia

Indefinite-term contract | June 2021 – August 2021

- Secured cloud platforms (AWS, Azure) by configuring policies and implementing best practices.
- Reduced infrastructure costs through resource optimization and effective budget planning.
- Conducted ethical hacking tests on patient and doctor portals, ensuring data integrity and compliance.

BlueTeam Engineer

TIVIT | Bogotá, Colombia

Indefinite-term contract | February 2021 – May 2021

- Secured mission-critical assets through vulnerability analysis and ethical hacking on Azure environments.
- Configured and maintained IaaS platforms, ensuring system reliability and uptime.

Infrastructure Manager

Smart Taxi | Bogotá, Colombia

Indefinite-term contract | October 2020 – February 2021

- Managed AWS infrastructure, configuring and maintaining servers and network components.
- Conducted cost optimization and implemented security enhancements to reduce operational expenses.

Cybersecurity Administrator

TIVIT | Bogotá, Colombia

Indefinite-term contract | November 2019 – September 2020

- Automated tasks using *Python*, *Bash*, and *PowerShell*, increasing operational efficiency.
- Managed vulnerability scanning tools like *Tenable Nessus*, *Qualys*, and *Acunetix* for security assurance.

SOC Analyst

TECNIHARDWARE | Barranquilla, Colombia

Indefinite-term contract | January 2017 – August 2018

- Implemented and maintained Windows and Linux servers, supporting critical business operations.
- Responded to security incidents and escalated them to higher-level analysts as needed.

TECHNICAL SKILLS

- **Cloud Platforms:** AWS (ECS, EKS, S3, RDS, EKS, VPC, EC2, Lambda, EFS, FSx, EBS, ELB, DX)
- **DevOps Tools:** *Jenkins*, *GitLab CI*, *Ansible*, *Puppet*, *Terraform*, *Docker*, *Kubernetes*, *Github Actions*, *FOCUS*
- **Security Tools:** *SonarQube*, *OWASP ZAP*, *GuardDuty*, *Splunk*, *Elastic Stack (ELK)*, *Wazu*, *Datadog*.
- **Programming Languages:** *Golang*, *Python*, *PowerShell*, *BashPython*, *PowerShell*

- **Operating Systems:** Debian, CentOS, Ubuntu, RedHat, Windows Server (2003–2022)
- **Frameworks and Standards:** MITRE ATT&CK, OWASP, NIST, CIS, PCI-DSS, HIPAA, SOC2
